

TECHNICAL DATA SHEET

OXY-BOOST OXYGENATED ALKALINE CLEANING SOLUTION BOOST

DESCRIPTION

OXY-BOOST contains active oxygen along with water conditioning agents to boost the cleaning performance of alkaline cleaning solutions in CIP/COP cleaning operations

- Environmentally friendly alternative to chlorinated products
- Penetrates, dislodges, and removes difficult soils.

DIRECTIONS

- Do not run in closed systems. The release of oxygen will cause an increase in pressure.
- Add OXY-BOOST at a level to arrive at a total concentration of 0.1% to 1.0% in the alkaline CIP solution by volume.
- OXY-BOOST functions by the release of oxygen. For maximum performance alkaline solutions should be 115°F or above where oxygen release occurs.
- For specific use recommendations or answers to any cleaning or sanitation questions you may have, contact us at (800) 248-8515, or send us an email at info@acechem.com.

PROPERTIES

Form	Clear liquid
Color	Colorless
Odor	Slight
Density	1.09
Foaming	None

Special considerations and notes: avoid soft metals

Always observe label statements and follow the information contained in our Safety Data Sheets (SDS).

The information contained herein is to our knowledge, true and accurate. Because conditions of use are beyond our control, we make no warranty or representation expressed or implied, except that the products discussed herein conform to the chemical descriptions shown on their labels. Nothing contained herein should be construed as permission or recommendation to infringe any patent. No agent, representative, or employee of this company is authorized to vary any items of the notice.
